Uncle Saleh is fond of going to the cinema. We don't have a cinema in our town, so he travels to the next town to see a film once a month. He goes to the cinema alone though he has many friends.

GIANTS

Recently, we knew why from my mother. Uncle Saleh wanted to be an actor at early age. He waited outside the studios to appear in scenes, trying to achieve his goal as a film star. While he was looking for a small part in a film, he met a director in our town who offered him a role as an accountant in a bank. The part was small with a few lines, but important for him. He thought it was the beginning as a film star. In the end, the scene was cancelled and nobody told him. When the film appeared in Cairo, he took all his friends to see it. It was a terrible blow as he was not in it! Since then, he went to the cinema alone.

Health is better than wealth. One cannot exchange health for all the money in the world because health is the most valuable thing from God.

A sick person lives a bad life full of pain, weakness and suffering. He feels that he is a real trouble to his family. He loses the nice taste of food. You can enjoy good health if you practise suitable exercise, learn some interesting hobbies, get enough sleep and eat healthy food. So, one shouldn't eat more than eighty grams of fat a day. We mustn't eat much ice cream because ice cream has got a lot of fat and much sugar. Fresh vegetables and fruit are very good for your health.

box of jewellery and a third an Arab horse to the king. But the king liked other three men the best. The first man was a clever doctor, the second man was a successful teacher and the third was a great scientist who had many discoveries. When the king thought which of the three men to get the reward, a woman came near to him. She told him that those three men are her sons and she came to see who would win the reward. The king, at once, gave the present to the woman because she had given birth to those great men. It was a beautiful big house.

A lot of people often admire successful and well-known persons such as great scientists, writers, film stars and sportsmen. They consider them as role models and often try to follow them.

However, there are other heroes in our life. They may be simple and less famous but they play important roles in supporting their communities. We should respect every active farmer who works hard in the hot sun to grow our food. The brave soldier who is ready to die for his country. The clever doctor who works day and night to fight diseases and cure patients.

The honest teacher who helps his students and prepares them for life. The good citizen who does social and voluntary work to serve his country.

All those are good examples of the least famous heroes who should get much love, respect and thanking.

Last birthday, I decided to celebrate it by inviting some friends out to supper. I chose a restaurant because the food there is good and the waiters are friendly. It is hardly crowded, because few people know about it, so it isn't necessary to book a table there.

When we entered the restaurant, I was surprised to find it completely full. One of the waiters recognized me and explained that a party of tourists came in about half an hour ago and pointed to a corner table as the people there were about to leave. Fifteen minutes later the people at that table paid and left.

Unfortunately, all the waiters were busy with the party of tourists. They ordered enormous quantities of food. Nearly an hour later, the tourists were finishing their meal and left. The waiter came to our table and we asked for some dishes. A few minutes later he came back and informed us that there was no meat or fish left.

A student and his professor saw a pair of old shoes lying in the path. It belonged to a poor man who worked in a field nearby. The student wanted to play a trick on him, but the professor refused. They agreed on putting a coin into each shoe and hide themselves to watch how that would affect the poor man. The man soon came to the place where he had put his shoes. While slipping his foot into one of his shoes, he felt the coin .The man put it into his pocket. When he proceeded to put on the other shoe, he found the other coin. His feelings overcame him and he jumped over with joy thanking God. The man spoke of his sick wife and his hungry children. The student was deeply affected and his eyes filled with tears. Online shopping is a form of electronic commerce which allows customers to directly buy goods or services from a seller over the internet using a web browser or a mobile app. Customers find a product of interest by visiting the website of the sellers directly or by searching among many of them using a shopping search engine, which displays the same product's availability and pricing at different esellers. Customers can shop online using a range of different computers and devices, including desktop computers, laptops, tablet computers and smart phones.

Online stores usually enable shoppers to use "search" features to find specific models, brands or items. Online customers must have access to the internet and a valid method of payment in order to pay, such as a credit card, debit card or service such as PayPal.

One hot day, a thirsty crow flew all over the fields looking for water. For a long time, she could not find any. She felt very weak, almost giving up hope. Then, she saw a water jug on the ground. She flew down to see if there was any water inside. Yes! She could see some inside the jug. The crow tried hard to push her head into the jug. Unluckily, she found that the neck of the jug was too narrow. Then she tried to push the jug down for the water to flow out, but it was too heavy for her.

The crow thought hard for a while. Looking around her, she saw some small stones. She suddenly had a good idea. She started picking up the stones one by one, dropping each into the jug. As more and more stones filled the jug, the water level kept rising. Soon it was high enough for her to drink. Her plan had worked!

Every night, we wait for him at the dinner table to chat with him. He also takes us for a walk after dinner and tells us interesting stories. He takes us for a picnic or a movie once a month. He understands his responsibility towards the society. At weekends, he volunteers at an old people's home.

My name is Adel. I am a prep-school student. I live in the town of Tala, Menofia. Last week, I tried two new restaurants - Flower's and Cloud. They are both Italian restaurants downtown. Flower's is a small place with about fifteen tables. The waiters and waitresses are very friendly, and the service is excellent. I ordered chicken with rice and a salad. Then I had chocolate cake and coffee. The chicken was delicious, but the cake was too hard. The meal cost about seventy-five pounds only.

Cloud's is a much bigger restaurant, and it was very busy that night. I waited twenty minutes for a table, Cloud's is noisier than Flower's, and the waiter was very slow with my meal. I ordered soup and meat with fried potatoes and vegetables. The soup wasn't very hot. The meat was OK, but the vegetables weren't very good. Then, I had ice cream. The meal was really expensive - about three hundred pounds.

When I was young, I always loved both drawing and painting, but I could neither read nor write well. As a result, I didn't understand the lessons at school and got bad marks.

My parents thought that I wasn't very clever. For this reason, they took me to some tests. They discovered that I suffered from dyslexia which means it was difficult for my brain to read and spell. To help me, my parents asked a teacher to give me special lessons which made me have good results. Later, at school I was better and did well in exams.

Also, I got a prize for my art. Then, I decided that I would like to be an artist one day. Now, I volunteer at a charity for other children with dyslexia to offer help and teach them about art.

I am Mary. I am from England. Last summer, I visited Egypt for the first time. My friends advised me to go to Ismailia. The city is situated on the west bank of the Suez Canal. It is known as the City of Beauty and Enchantment. The guidebook said that I should visit Lake Timsah that lies between the Red Sea and the Mediterranean Sea. Egypt is full of gorgeous lakes, but Lake Timsah is one of the most famed spots for its wonderful blue water. I also visited The Ismailia Museum. It is a small museum but it contains numerous objects that are really worth seeing. Most of the things that you want to know about Egypt, especially history, can be found there. Travellers consider Alsalam Bridge and Ismailia Stadium as the best of four tourist attractions in Ismailia. I enjoyed visiting all these places during my stay there I hope I will visit Egypt again and again.

Last April, I went with my family to Hurghada. We went there to spend some enjoyable time. My father drove us there. It was a long drive, but we enjoyed watching the beautiful sceneries. We stayed for three weeks. We did a lot of interesting activities there.

We went swimming and snorkeling in the sea. Under water we saw many beautiful kinds of fish. The water of the Red Sea is warm and pure. I also went windsurfing with my brother. At first, I was frightened, but quickly I felt safe as my brother was careful and he encouraged me to feel safe.

Every evening, we went shopping and visited some wonderful bazaars. A bazaar is a place where visitors such as tourists can buy wonderful souvenirs for their families and friends. There, I bought some souvenirs for my friends. I think it was a good experience for all of us so we're looking forward to visiting Hurghada next year.

Encouragement is one of the most important keys of success in life. Years ago, an old poor man lived in a small village in Beni Suef. He had a small family, his wife and three sons. He worked day and night to earn money for his family to live on. He worked hard and hard to send all his sons to good schools. He faced a lot of difficulties and problems. His honest, encouraging wife did her best to help him. They could bring up their sons well. She helped her husband to be successful. Their sons grew up and went to different universities. With the right support and encouragement, the three boys became great men in society. The first was a famous doctor who worked in Qasr El-Eini Hospital. The second was a well-known businessman who had his own projects. The third got a high position in the city factory. They were so successful persons because of their parents' help and support. All the family lived a comfortable life then.

He met difficult problems, but nothing stopped him. He had to work hard because he aimed to be a businessman. Years later, he made a lot of money. He then planned to start more companies in other countries. He went to New York on business where he met Sara; a painter. At first he thought that she was from America, but he was surprised to know that she was from Aswan. They got married and came back to Egypt. They gave money to help the poor. He wrote a book about his life which was popular with a lot of readers. It gave them a lesson about how to be positive and what you can do to make a difference to your community through working hard.

It was not an easy job. In fact, it took them all the morning. But at last, the tree was lying on the ground leaving a big hole in its place. My husband went down into the hole and began to look around. "There is a small metal box!" he shouted. We opened it. It was full of gold. "I suppose someone hid this box in the ground. The gold is probably worth a lot of money!" my husband said. | | | | | |

Do you feel you have no time for yourself? Do you forget to call family on birthdays or holidays? Have you stopped going out with friends because you're too busy? Do you have trouble relaxing and having fun?

If you recognize yourself, you should remember to slow down and take more time for everything. Living a balanced life is about integrating the many vital areas of your life, including your health, friends, family, work, and romance. Here are some tips for restoring a healthy perspective. First, remember to make time for the important people in your life. Stop over-scheduling and spend quality time with friends and family. Second, learn to eat, talk, walk, and drive more slowly. And don't forget to turn your smart phone off sometimes. People who really want to talk to you will call back. Third, learn to live in the present and stop worrying about the future. And finally, take it easy and begin enjoying the simple things in life. Stop to smell the roses.

You probably have a fridge in your house to keep your food cool, but have you ever thought about what people did in the past? People have used ice to keep food cool for thousands of years. In the north of Europe in winter, people were able to use snow or ice which they kept underground for many months. In 1842, an American doctor called John Gorrie invented a machine to make ice. He used it to keep people cool when they got an illness called "yellow fever". By 1900, places that sold meat in the USA started to have fridges and today, nearly all homes in the USA have a fridge in their kitchen.

We continue to use the same technology for fridges that we have used for a century. The problem is that a room with a fridge in it is a lot noisier and hotter than other rooms! Now people are designing modern fridges that are neither hot nor noisy. These are going to use less energy, too, so they will be more efficient.

Heba is a very good girl. She is always energetic. She is not tall. Ten years ago, Heba, who was seven years old then, went into her father's library and asked him if she could borrow some books. This made him very happy. Heba's father thought that his daughter was interested in reading. He asked her to take any book. She did what her father told her. She chose many big books and took them to the garden outside the house and put them under an orange tree. Heba's father and mother followed her to see what she would do with the books. My friend Tarek likes farming so much. He lives in a very nice house with a small garden. In the garden, his father plants different kinds of fruits and vegetables. One day, he invited me and seven of our friends to his birthday party.

I arrived at my friend's house at eight in the evening. There, I found all my friends sitting with Tarek in the garden. One of our friends brought a nice book about farming.

Tarek's mother prepared lots of nice cakes for us. We ate, drank and sang songs. Tarek got lovely presents, and he was so happy. After the party, we played some computer games in Tarek's bedroom. It was a very wonderful evening and we went back home at ten. It was one of the best days in my life.

| Buying and selling is part of everyday activities. People used to do this long ago. But shopping habits changed a lot. In the past you could deal directly with a person. You could talk to the seller and even ask for advice about the best quality and price. When there was a problem, you could go to the shop and explain it. At that time you could solve any problem at once. Buying and selling today depend on a lot of online activities. First, you must log on the internet and choose price, the quality and time of delivery. You must provide correct and clear information to get your product. When there is a problem, you must fill in a form describing it clearly. An online assistant will contact you. But it may take a long time to get a reply. The biggest problem is that some companies can't be reached easily because they may be far away from you or you don't know the exact address. To buy online, you must be careful about your personal information. You must keep it secret and deal with trusted online companies. |

Long after the discovery of electricity , man found out that he could use the great power of water to produce electricity . At first , man used waterfalls from high mountains . Later , he began to build dams across rivers to form a lake behind . The water is then allowed to fall under control through huge pipes to run turbines , machines which help to produce electricity . This runs into wires and is treated before it is used in homes and factories . Dams have also been built along rivers in the world to make full use of the water , so it nuns to the driest and least fertile lands to prepare them for farming . Now man uses the sun to produce electricity . Scientists never stop inventing new ways to produce energy which don't pollute the environment . He carries her books from class to class in a special backpack. Because of Sam, Mona doesn't have to ask people for help.

> 3) Read the following passage, then answer the questions:

I am greatly interested in reading because it is very useful and necessary in our daily life. So, it is my favourite hobby. We should read a lot of different books during our free time to increase our knowledge. We can get much information that helps us make our Life better and easier. We should encourage our pupils to go to the school library to read and borrow books.

Although we are living in the <u>age</u> of modern technology, most people prefer reading printed books which they can carry with them anywhere. We have computers, laptops and the internet at homes and in our schools, but our best friend is still the printed book. Books should be cheaper and school libraries must be open during the summer holidays.
